An eminent writer once said, "Others merely live I vegetate". I think this is my preference too.

**BARBARA FIAND**  
I do much personal research in philosophy and psychology, attend symphonies, plays, and ballets at Place des Arts, canoe, sail and travel in the summer, and make attempts at bowling in the winter.

What free time. Let me know where to find it.

**FRANCINE LABERGE**  
In winter, I like to read, see movies, attend concerts or plays. In summer, I like the outdoors. My only creative activities are cooking, and drawing.

Free time when I have some after many preps and corrections I like to cook quite a lot. A new dish is always an attraction for my family and myself. Also love skiing in winter and golfing in summer. My average is a bit above my weight!!

I like to fix things during my free time. My car, motorcycle, and things around my apartment always require attention. Doing sports, watching sports and movies occupy the other half of my free time.
