

Most members of the L.C.C.H.S. staff are very athletic, profecient in all sports. Experience and poise replace the aging legs of the not so young members. Every Thursday after school, weather and blackouts permitting, 26 of the male staff head to the arena for a hockey confrontation between the Warts and the Kreeps. The team names signify the attitude for these games; all play, whether weak, mediocre or strong, no body checking or slap shots will be seen, the atmosphere is competitive but friendly, built up tension is released and the post game get together is as much fun as the game itself. A better method of pulling the staff together has yet to be discovered.
